

Regional Business Systems Inc.
SOLUTIONS THROUGH SERVICE

Proud to be green!

REDUCE, REUSE, RECYCLE

Here's what the Kensington Court Group of Companies are doing.....

- We recycle all scrap metals and wood pallets
- Our staff recycle on average 100 items a week from household materials i.e. plastic bottles, glass bottles, jars and cans
- We recycle all cardboard boxes including shipping boxes and packaging
- We recycle all paper, envelopes and stamps generated in office, including newspapers
- We have installed energy saving devices on the compound for electricity and water
- We recycle used ink cartridges and toners internally
- We turn off our air conditioners early to save energy
- We are phasing in LED lighting into our building
- We have staff devoted to "greening" our business and are actively and continuously investigating ways in which we can improve our energy efficiency
- From time to time we conduct "drives" to get staff to bring in used appliances and electronics to be recycled
- Our group of companies seek partnerships with companies that are engaging in environmentally friendly practices and seeks to use less harmful packaging

What are the 3'R'S?

REDUCE, REUSE and RECYCLE.

Reduce means practices which use less.

Reuse is to utilize something again in its original form

Recycle is to use the material something is made of to make something else.

Did you know.....

- For every ton of paper that is recycled, 7000 gallons of water is saved.

-You can run a TV for 6 hours on the amount of electricity saved by recycling one aluminum can.

-By recycling just one glass bottle, you save enough electricity to power a 100-watt bulb for four hours.

Reuse the past, Recycle the present and Save the future!

“Think green - please consider the environment before printing this document”
